

```
#include <iostream>
#include <set>
#include <iterator>
#include <string>
using namespace std;

int main () {

    //istream_iterator<string> eos;           // end-of-stream iterator, useful when
    //                                         // working with file streams
    istream_iterator<string> iit (cin);       // stdin iterator

    set<string> document;
    set<string>::iterator sp;

    for (; *iit != "-1" ; iit++) document.insert(*iit);

    for (sp = document.begin(); sp!=document.end(); sp++) cout<<*sp<<endl;

    return 0;
}
```

Output:

The screenshot shows a Windows command prompt window titled "C:\WINDOWS\system32\cmd.exe". The window has a black background with white text. The output of the program is displayed as follows:

```
i love cows
how are you
today is Tuesday
